

Requirements for UKC Breed Recognition

*The United Kennel Club feels that breed recognition is a significant landmark for a breed, in that it will become officially recognized by the world's largest performance dog registry. Full recognition entitles a breed to all the benefits of UKC, including, but not limited to, registration and participation in conformation and performance events licensed by the United Kennel Club. Therefore, the United Kennel Club prepared the following Breed Recognition Policies, all of which must be completed in order for a breed to be considered for recognition. **Submission of this does not guarantee acceptance.***

The United Kennel Club Breed Recognition Committee will *CONSIDER* a request for breed recognition of an established/existing breed from:

- a reputable breed organization; or
- an individual

once the following information has been submitted, *in total*, to UKC.

The organized, written proposal *must* include the following.
